TARGETING Talent PROGRAMME

2023/039
13 July 2023

RE: Letter of Attendance-Targeting Talent Programme (TTP): Kopano Isago Mogadile-TT211251

This letter serves to confirm that Mr Mogadile (a learner from Wrenchville High School in the Northern Cape) was selected to participate in the Targeting Talent Programme (TTP), a flagship project hosted by the Student Equity and Talent Management Unit (SETMU), based at the University of the Witwatersrand in 2021.

As a result of the COVID 19 pandemic, a national regulatory protocol was adhered to and the March and October supplementation sessions as well as the July enrichment programme was replaced with online engagement in 2020/2021. The activities involved synchronous and asynchronous offline learning through written interaction with content, written discussion on the discussion forums and reflection on the Learning Management System. From 2022, a blended model was adopted which meant that the two supplementation sessions were hosted online on the Learning Management System, Ulwazi and the enrichment session was hosted at the University of the Witwatersrand. In this way, learners were supported in their development into individuals who are able to think critically, are curious about the world around them and learners who take responsibility for their learning so that they become independent life-long learners.

Mr Mogadile has participated in the following programme sessions:

Year	Session	Dates	Participation status
2021	April- May OMSSC session	24 April-15 May 2021	has shown exemplary participation
	June- August OAEC session	26 June-14 August 2021	has shown exemplary participation
	October OMSSC session	1-30 October 2021	has shown exemplary participation
2022	March/April OMSSC session	23 March - 2 April 2022	has shown exemplary participation
	July RAEC session	1-16 July 2022	has shown exemplary participation
	September OMSSC session	31 August- 23 September 2022	has shown exemplary participation
	October OMSSC session	29 September-28 October 2022	has shown exemplary participation
2023	March/April OMSSC session	25 March- 22 April 2023	has shown exemplary participation
	July RAEC session.	30 June- 14 July 2023	has shown exemplary participation
	August OMSSC session	5-26 August 2023	has shown exemplary participation

Mr Mogadile successfully engaged in the Social Research Project since his participation in the Programme.

Kind regards

Vice Chancellor

Mr. L.P. Jack
Dean of Students

Dr P. Kota-Nyati
Dean of Learning and Teaching

To encourage meaningful learning as a result of Co-Curricular Involvement, the Co-Curricular Record features Learning Outcomes that identify students' learning through involvement experiences. The following guide identifies Learning Outcomes and Development Indicators to help you better understand the learning that can occur in student involvement. Learning outcomes can be likened to transferable skills and help develop students in a more holistic manner. Students should be prepared to discuss their experiences in order for you to access their learning in the identified areas.

Nelson Mandela University Learning Outcomes and Development Indicators

Adaptability
- Remains open and responds well to challenges, transitions and new situations
- Able to think creatively to generate new ideas and innovations
- Adapts to varied responsibilities, schedules and contexts
